

Bryce Postlewait

Client Application Support Specialist | LMS Support | CRM Support

732-278-9047 – Bryceap@pm.me – [linkedin.com/brycepost](https://www.linkedin.com/brycepost) – bryce.cafe

Work Experience

Client Application Support | LMS | Technical Support

Brookdale Community College 2025 - Present

- Troubleshooting Canvas LMS and campus applications via ticketing system, phone, email, and in-person support for 8,000+ students and faculty in a high-volume academic environment.
- Diagnosed user-facing application and access issues, researched solutions, communicated fixes clearly to users, and confirmed resolution across LMS and authentication-related problems.
- Built and audited Canvas course shells for semester launches, verifying course settings, permissions, enrollments, and instructional content readiness.
- Reduced support ticket turnaround time by approximately 50% through structured triage workflows, documentation templates, and standardized resolution processes.

Testing Center Technical Support Specialist

Brookdale Community College Oct 2015 - June 2025

- Supported up to 200 students and community members per day through phone, email, and in-person service channels.
- Diagnosed and resolved technical issues involving logins, scheduling systems, testing applications, workstations, and account access.
- Maintained case records for intake, issue tracking, identity verification, and follow-up while following FERPA and data privacy procedures.
- Coordinated escalations with senior leadership and technical teams, providing clear documentation and resolution updates.

Marketing Writer and UX Designer

Hearspace 2020 - 2022

- Produced technical documentation and translated 16 pages of visual design specs into developer-ready handoff materials
- Built mailchimp email campaigns and pitch decks targeting 3 market segments; contributed to measurable visual growth

Professional Overview

- Client-facing IT and LMS support specialist with 9+ years resolving technical issues across phone, email, ticket, and in-person support channels.
- Experienced supporting high-volume environments, troubleshooting user-facing applications, maintaining documentation, and triaging urgent requests under pressure.
- HubSpot certified with active Salesforce Administrator and CompTIA studies underway, supporting transition into CRM, technical support, and systems administration environments.
